

We merge storytelling & tech to create audio-video content that impacts each audience.

From pre-production to filming to post-production, we cover the whole process of crafting story outlines, recording and editing video content.

Trailers

Captivating trailers for plays, films, books and business events

Live Events

Showcasing events in all their glory, edited for every platform

Short Films

Script to screen productions that captivate audiences

Event Highlights

Vertical and horizontal video highlights for every event

Plays

Capturing powerhouse performances from stage to screen

Podcasts

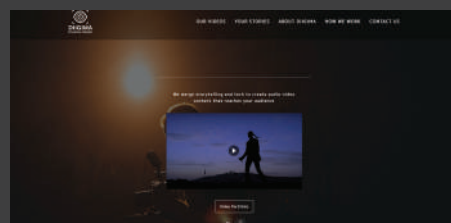

Audio and visual podcasts to amplify each voice

Diigima Creative Studio

With trailers, short films, videos, audio stories, podcasts and interactive quests produced across digital platforms, we are Diigima Creative Studio.

We took the name Diigima from the Greek for narrative or short form story. It's our passion, imagination, dedication and desire to get audio-video stories out into the world.

Combining our storytelling and digital skills, we create videos that make an emotional impact on each client's audience.

As the Diigima duo, we use our experience to make high-quality videos ultra-quick, allowing clients to get them out in the world fast.

We provide an exhilarating collaborative experience, so that clients love our work and love working with us.

'The videos are perfect. I love the vertical version for socials and the horizontal video is playing on our in-house screens. Great work!'

Borja Ferrer / Head of Marketing, Tech Barcelona
